Problem Statement:

UofSC Students are frustrated because they don't know which dining hall to eat due to the lack of a campus-wide menu as well as the lack of accurate wait times for restaurants. Users also struggle with finding a dining hall that can accommodate their dietary restrictions. Our solution should provide users with a way to find dining halls/restaurants that offer food that accommodates their needs as well as accurate wait times.

Who is experiencing the problem?

College students at the University of South Carolina including those with dietary restrictions.

What is the Problem?

There is a lack of information about the campus-wide food selection and accurate wait times.

Where does the problem present itself?

This problem occurs in dining halls on Campus.

Why does it matter?

These problems cause inaccessibility to food options and a conflict with schedules.
